

## D&C Pre-Procedure Instructions

You are scheduled for the D&C procedure on \_\_\_\_\_.  
Plan to arrive at the clinic at \_\_\_\_\_ am/pm.

Please eat a light breakfast or lunch before you come to the office on the day of your procedure. You will feel better if you have had something to eat before you come.

You may be prescribed an antibiotic prior to the procedure.  
If so, please pick up the medication from your pharmacy and bring it with you to your appointment.

You will have an IV started and will receive pain medication prior to the start of the procedure. Because of this medication you will need to have someone drive you to and from your appointment.

You can also expect to receive an anti-inflammatory medication called Toradol prior to the start of the procedure. This medication will help with any uterine cramping.

You will be able to go home as soon as you feel comfortable doing so after the procedure is completed. As soon as the medications have worn off you may return to your normal activities for the day.

If you have any questions, please feel free to contact the office at (608)729-6300.
